Dear Sir/Madam,

My name is Altynbek Shaidyladev, and 2018 autumn semester of my study course, I would like to spend at the Masaryk University. Currently, I am student a first year student of Adam University, at the study program of Management.

I have started looking where to go on exchange since I have admitted to the program of Management. This opportunity is a big advantage of the program. On exchange, you develop many academic and social skills that are important in your career. Meeting new people, living in a completely different environment and finding your way in this, experiencing cultural and educational differences and learning to deal with them are difficulties, which could be met living in Czech Republic.

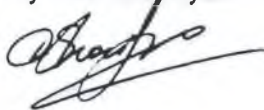

In the following, I will give couple of reasons why I would like to go to Czech Republic. Firstly, the economic situation and economic development going on there is very interesting for my field of study. The Czech economy grew by 2.7-2.9% in the last year, a favorable business environment and higher level of HDI (Human Development Index). I would like to learn more on how that situation has developed itself.

Secondly, the culture is so different from ours. For instance asking how you are doing in European countries can be answered with terms like I am fine and I am doing alright, whereas in our country a story on how your life is at that point in time will be given, from how you like the weather, to how the children are doing in school. Learning to deal with these differences will be a huge improvement for me personally and will definitely help me during my future career, since by the time I will have deal with different people.

Thirdly, this exchange provides me the possibility to travel through Czech Republic and do it a part of studying.

From the International Department of ADAM University, I have obtained information about previous student's experiences. The experiences were very good and courses were challenging yet exciting. Finally, the Masaryk University offers a range of courses such as Business Projects, Business Process Management, Business Logistics and Transportation, which I am very interesting.

Yours sincerely,  
Altynbek Shaidyldaev

## Higher Education Learning Agreement for Studies

*Altynbek Shaidyldaev*  
Academic Year 2018/2019

<b>Commitment</b>				
By signing this document, the student, the Sending Institution and the Receiving Institution confirm that they approve the Learning Agreement and that they will comply with all the arrangements agreed by all parties. Sending and Receiving Institutions undertake to apply all the principles of the Erasmus Charter for Higher Education relating to mobility for studies (or the principles agreed in the Inter-Institutional Agreement for institutions located in Partner Countries). The Sending Institution and the student should also commit to what is set out in the Erasmus+ grant agreement. The Receiving Institution confirms that the educational components listed in Table A are in line with its course catalogue and should be available to the student. The Sending Institution commits to recognise all the credits gained at the Receiving Institution for the successfully completed educational components and to count them towards the student's degree as described in Table B. Any exceptions to this rule are documented in an annex of this Learning Agreement and agreed by all parties. The student and the Receiving Institution will communicate to the Sending Institution any problems or changes regarding the study programme, responsible persons and/or study period.
